THE SMALL SHIP ADVANTAGE™

American Cruise Lines is the largest U.S. cruise line with more ships, itineraries, and options than others. Our secret to success is the small size of each ship.

Small Ships Fit the River ★ Where others run one behemoth riverboat, we operate multiple small ships. Each can navigate the widest range of river conditions, offer the greatest breadth of itinerary options, and, most importantly, fit harmoniously in the communities we visit.

The Newest Ships ★ Although each ship is small, it offers all the amenities and comforts sophisticated travelers have come to expect. In 2018, American Cruise Lines revolutionized river travel with the first truly modern ships on the U.S. rivers. With the most environmentally friendly fleet in the country, each newly constructed ship is the perfect venue for responsible exploration.

The Largest Staterooms ★ For fifty years, American Cruise Lines has taken pride in the generous size of our staterooms, which average over 350 square feet. Although the ship may be small, we challenge you to find larger onboard staterooms anywhere else. Plus, every new ship has staterooms with private balconies with floor-to-ceiling glass doors.

Most Itinerary Options ★ Our fleet offers more than 50 itineraries visiting 35 states. With different ship styles, itineraries, and seasonal specialty cruises, the breadth of options offers something for every interest.

Spacious Staterooms
